

Worksheet: Algorithms and Flowcharts

- 1a. Draw a **flowchart** that represents an algorithm that prompts a user to input their name, then greets them with a hello message including their name.

- 1b. Write the **pseudocode** for the flowchart above.

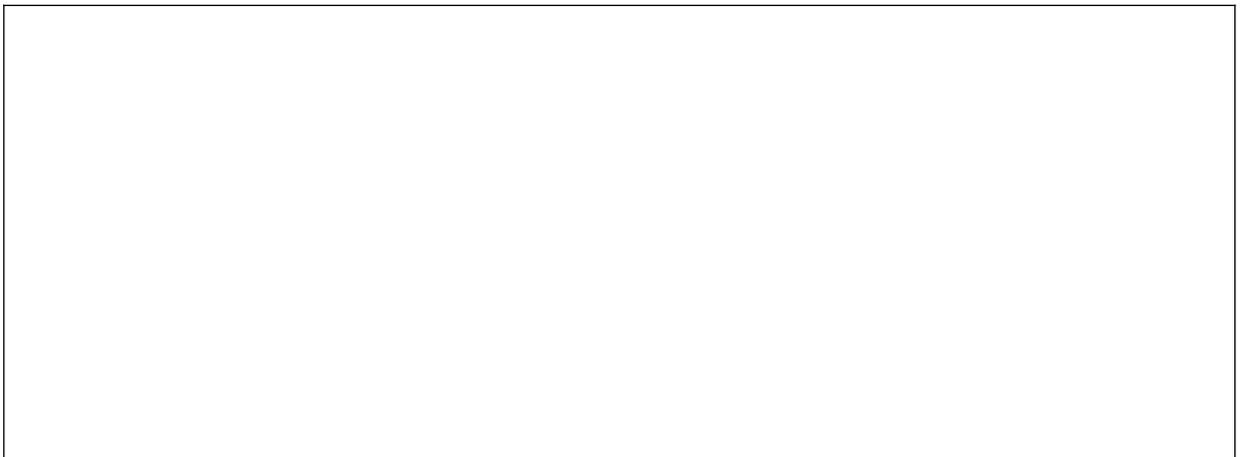

Worksheet: Algorithms and Flowcharts

2a. Draw a **flowchart** that represents an algorithm that takes three numbers as inputs (call them x, y, and z), and outputs the average of those three numbers.

2b. Write the **pseudocode** for the flowchart above.

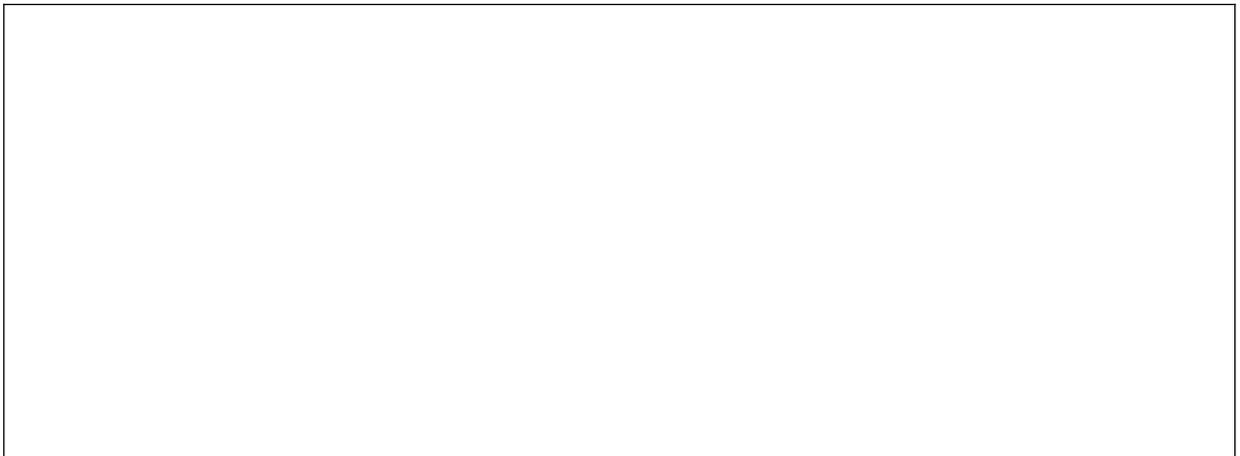

Worksheet: Algorithms and Flowcharts

- 3a. Draw a **flowchart** that represents an algorithm that inputs an integer (call it `limit`) and outputs all even numbers between zero and `limit`. (You can assume `limit` is a whole number).

- 3b. Write the **pseudocode** for the flowchart above.

Worksheet: Algorithms and Flowcharts

- 4a. Draw a flowchart that represents an algorithm that inputs three numbers (call them x , y , and z), and outputs the largest of those three numbers.

- 4b. Write the pseudocode for the flowchart above.
